However, at certain times, the formation of kidney cycles also involves this type of infection. I am sorry to go to the bathroom constantly and, at all times, is usually one of the most common symptoms of sand in the riots. This is because the cages move constantly and attached to the urinarian system. On the other hand, as pain or burning when urinating, it may also be the presence of a urinarian infection. A healthy urine usually has a light tone and is practically bathroom. If your patients tell you that they have an obscure urine and smell, they are probably having kidney cages. The obscure appearance may be a sign of piophia or pus presence in the urine. And the strong smell can be produced by the high concentration of the Á .minerals and salts in the urine. But it may also happen that a large concentration of cage has been congested, urine, preventing the flow in a normal way and forgiving the urine from small quantities. Well, if it is not treated in time, the urine lock would cause a more serious emergency emergency in our patients. Herbensurine and other natural remedies to treat sand symptoms in the riots: the best treatments you can offer in your pharmacy against sand in the natural origin, since many pharmacist products present against indications or are too strong to treat mild kidney problems. The best known plants to eliminate sand in the riots: hernia. It is a plant popularly known as "rompe-piedras" due to its main medicinal uses for the treatment of kidney cycles and urinarian problems. It also has qualities to deal with other diseases, such as inflammation, diureyal or anti -caltic problems. Ponytail. It is another plant best known for its diurist and purifying effect. In addition, in the last years, it has also been used as a safe and effective anti -inflammation to relieve rheumatic problems in cases of arthritis, osteoarthritis and gout. In Deiters, we are experts in eating supplements and we offer natural origin products to solve common problems, such as sandwich in your patient's riots. In addition, we defend the farms as a successful space that promotes healthy life and self -care between the population. For this reason, if any of your patients have a history or have chroctic problems of stones or sand sands in the laughs, these are the best recommendations you can give: the ingesting of a 2 liters of 2 liters of the day to generate between 2-3l of urine and to be more than the expelling of sand in the riots. Reduce the consumption of foods rich in track, especially lighteas. Cystitis is an infection of the urinarian tract that can cause many discomfort. In fact, for people who usually have this problem with frequency, this disease becomes a more frequent recurring cystitis. A possible solution or preventive treatment may be food supplements. We talked about recurring cystitis, their symptoms and their treatment. Very attentive! What is recurring or chronicle cystitis? Recurring cystitis is a type of bladder infection that occurs with a certain frequency in patients who rescue certain Suffering this recurring disease is very annoying for anyone, so it is very common for the affected people to be pharmacerrated in search of a perch of algon or effective treatment to relieve symptoms. What are these factors that make some people more likely than others to suffer recurring cystitis? Some of the triggers are: bactus that are introduced into the urethra during sexual relationship. Changes in strí'gen, usually menopause. Function or abnormal form of urinarian life. A genius predisposition. But do we understand exactly by chronic or recurring cystitis? It is considered that someone is prone to cystitis with frequency when it had at least two bladder infections in a period of less than 6 months. The most common symptoms of cystitis to know how to identify a case of recurring cystitis are essential to meet the most repeated symptoms. Well, if we focus on the first of risk factors, you should know that it is possible to detect kidney cycles in your patients through these 7 symptoms: constant and uncontrolled need to urinate. Sensation of ardor or bite when urinating. Urinate with frequency, but with little quantity. Hematan (blood in the urine). Urine with a strong smell with a dark color. Discomfort in the area of PÁ o S l'vica. Pressure in the lower abdominal zone. These symptoms are usual, but pay attention to other people who may also appear or disappear. The important thing, in any case, is that your pharmacy team is able to dispense with a right pattern, depending on the patient and their own symptoms. Cynptot, an effective treatment for recurring or chicnic citizens is the ideal adjuvant of anti -channels, which is usually prescribed in virtually all cases of cystitis As part of nuestros food supplements, its main benefit is that you are able to minimize the symptoms. Y lo que tiene aún más valor para los patients es que también actúa reduciendo la frecuencia con la que se suffering esta dolencia. In concrete, we have three solutions, each una con sus particular: Cystop® 135 mg: si un patient te cuenta que tiene predisposición a sufrir molestias al orinar, esta es la solución ideal. Con su se se consigue reducir la cantidad de episodios gracias al poder antiadherente de su composición (ándano rojo y D-manosa), que avoids que la bacteria E. coli se fije en las Paredes del tract urrio y propicia su Eliminación. Cystop® Intensif: además de reforzar la Eliminación de la bacteria E. coli, ayuda a disminuir la intensidad de los síntomas por su contenido en salvia. Cystop® Probiotic: the mezcla of probiotics Megaflora 9 ovo es la responsable de mantener en buen estado a la flora bacteriana saludable y de prote las vias micrias. Additional use of bulk for your patients If you have patiens who suffer cystitis recurrente, thank you also that these consejos aimed at minimizing symptoms. Aunque la curación completo no sea en principio posible, si puedes indications that tomen las siguientes measures to reduce las molestias de la cystitis recurrente y fim cuanto antes con el problema: Drinking abundant water. Ducharse instead of bañarse. Washed abundant and frequentes with a soft jabón. Avoid perfumed hygiene products. En Deiters we are deeply committed to the salud and bienestar of your patients, también de aquellos que padecen cystitis recurrente. By eso, we are a tu disposición si necesitas más información sobre su tratamiento o sobre cualquiera de nuestros alimenticios para trata sus sintomas. Stems episodis tan molestos, bad frequenteslas mujeres que entre los hombres, se producen tras una infección en el tracto urrio que, sin embargo, se puede control y prevent con las measures adecuadas. ¿Cuál es la causa de la cystitis en mujeres? la infección de orina o cystitis en mujeres is caused by la bacteria e. coli en la gran mayoría de los caso (un 80%). it is a germen that suele finse en los culpas y que es removed by las heces. sin embargo, the veces remains and reproduces of pathological manera en el aparato micrio después de rise por la uretra hasta llegar a la vejiga. esigual al orinar cuando se advierten los primerosntomas de la infección, que se ve favorecida por la partícula disposición de los órganos micrios de la mujer -el ano y lauretra están muy cerca- como por otro factors como los cambios que se produn a lo largo de la vida de las mujeres de la misma manera ocurre en periods en los que el organism se encuentra inmunodepress (lo que conocemos popularmente como "estar bajo de defensas"); en una situación así, el cuerpo no tiene so many weapons para luchar contra microorganismos perjudiciales como la e. coli. ¿Cómo se identifies la cystitis en mujeres? the symptoms of alarma surn al ir al baño. usually, la orina cambia de aspect y de olor; puede volverse más turbia, be teñida o desprender un olor fuerte y unpleasant. quien sufre una cystitis padece una serie de molestias entre las que highlight el dolor o scozor al orinar o al mantener relaciones sexuales. this infection también se puede evident con fiebre (aunque no en all cases), presión en la parte baja del abdomen y un signo muy characteristic: la necesidad urgent de go con mucha odis revit tsop else eS .ol- íÁlive a raduja omoc rebas e serehlum san etitsic ad sasuc sa racifitedi a eduja o ogitra etse euq somarepsE .jsanidinacotmaorpl (CAP ed ofÁÁÁartnecnoc alla amu etnarag euq ohlemrev sjÁra me odaesab otneempnoc mob mu emot .ofÁÁÁaripsnart a rarohlem arap ofÁÁdogla ed samitnÁ sapuor ahloco e sadatropa sapuor otivE .sejÁÁÁcefni riartnoc ed ocisr siam íÁh aicneÁtsmuicr assen siop .lauxes otatnoc od sioped e setna omoc .sociíÁrc sotnemom me etnatropmi etnemlaicpse ©Á otrop essE .sair©ÁÁrcab ed ofÁÁÁreflorp a ecerovaf ossi euqrop .ohnab oa ri ed ojeded o ratropus mob ©Á ofÁN .etnemlarleg ranirU .adahlom aslob a moc opmet ognoL mu rop racif ofÁAn levÁÁhlesnoca ©Á .edadimu ed ossexo o rarotinom araP met ÁAcov .amrof amsem ad íAstineg soÁÁgrÁ so moc otatnoc me mertne ofÁAn sunéÁ od swobh so euq arap .sairÁÁrtnoc ofÁN e .serodacot so arap etnerf ad erpmes serehlum meí (racedef ed sioped ol- íÁÁmil e odaugeda leg mu moc etnemairid ol- íÁval etnatropmi A .aces e apmil latineg anoz a ahnetnaM .adicerovaf ©Á oiríAniru otart on setneserp sair©ÁÁrcab ed ofÁÁÁanimile a euq zev amu .levÁssop omixíÁm o .ofÁÁtnE .Ílaicitsretni etitsicí acin Árc aniru ad ofÁÁÁacefni a uo n©ÁÁir ed ofÁÁÁacefni a omoc .sevarg saigolotap sartuo me ravired edop siop .dituscid res eved euq otiefe mu ©Á Á .asuaac euq lanoisaco otrófnocsed od m©ÁÁla .raizavse ed odabaca ahnet agixeb a euq omsem .ohnab oN The American red arm (or cranberry) is a small fruit that has demonstrated great potential to improve micria health and combat cystitis. The reason? One of its components called proantocyanidins (PAC) makes it difficult for the Bacterium E. coli to adhere to the bladder walls. & Discover everything you need to know about the properties of the red Arránano as a food complement against cystitis in this article, keep reading! It is discharging our catalog and discovers how to increase your profitability Properties of the Red Arranano against cystitis: It is estimated that between 50% and 60% of women will have as its own an infection Urria . Urrio treatment infections are frequent in women who in men and as a general rule they are simply treated with antibiotic and without more complications. However, during the days that the anti -trivic takes effect on the body, infection can become very annoying for those who suffer from it. Therefore, people prone or with more natural tendency to suffer infections of this type, seek any way to prevent them. In the last years, the consumption of the red Armonano has become very popular to treat this affection, both whole, in juice or in the form of a pill and food complement. These days pounce the efficacy of the red Armonano against the cystite: the results obtained in numerous closes confirmed that the efficiency of the red Armonano in the prevention of the urrians infections are related to their non -stick properties. Therefore, at this time, the use of red -based accessories is being considered as choice treatment by many specialists; either next to the treaties, in the episode of cystitis, or as a usual complement to prevent its appearance.
